

Backlit TP(a) UGR Panel

UGR Advanced Philips Powered LED Panel TP(a)

brightLED
...BRIGHTENING YOUR FUTURE

POWERED BY
PHILIPS

Overview

Advanced LED panel using backlit LED technology to ensure a long stable performance with efficiencies of 110lm/W.

This is paired with the latest anti-flicker LED driver from Philips which make this panel suitable for various applications with lifespans of 50,000. Additionally, an integrated micro-prismatic diffuser helps achieve design of UGR19 or less.

Features

- Philips powered driver
- Anti-flicker
- 110lm/W
- 32W 3520lm
- 4K 80cri
- Std or self-test emergency conversions
- DALI dimming option

Product Dimensions

Philips driver with simple twist lock connection
