## Overview

A remote programmable Microwave Sensor for office, classroom and commercial interior spaces where on/off or DALI control is required in small groups. Designed with a low profile for aesthetically demanding architectural projects whilst retaining the functionality expected of the latest lighting controls. Control to the light fixtures is provided via self-powered DALI communication (up to 40 drivers) or a switched output. Set-up of the sensor is carried out using a remote control handset with program memory allowing one-key commissioning where common settings are used for multiple devices.

## Features

- On/off version with manual switch input for override
- DALI version (onboard power up to 40 devices)
- Pre-set fast programming rotary dial
- Intelligent photocell for daylight detection
- Remote setting with IR controller
- Memory function for fast programming
- Recessed or surface mount options
- 5-year warranty

## Detection Pattern

## Product Specification

Code	Description
BLMW20	Recessed On/Off Microwave Motion Sensor programmed by remote IR (sold separately). Max 6m height
BLMW24	Recessed DALI Microwave Motion Sensor programmed by remote IR (sold separately). Max 6m height
BLHA02	Sensor Surface mount box for Microwave Sensors
